

Test Case ID	Functionality ID	Test Case Name	Test Summary	Pre - Condition	Test Steps	Test Data	Expected Result	Actual Result	Status
1	A1	check website Link	After Enter Link Check Website is open properly or not	Internet, Browser & Website in working condition	1. Open Browser [Google Chrome] 2. Enter Link	https://www.facebook.com/	After Entering Link Check Website should be open properly	As per Expected Result	Pass
2	A1	check website Link	After Enter Link Check Website is open properly or not	Internet, Browser & Website in working condition	1. Open Browser [Microsoft Edge] 2. Enter Link	https://www.facebook.com/	After Entering Link Check Website should be open properly	As per Expected Result	Pass
3	A1	check website Link	After Enter Link Check Website is secure or not	Internet, Browser & Website in working condition	1. Open Browser [Google Chrome] 2. Enter Link 3. Click on Link Icon	https://www.facebook.com/	After Open Website it should be secure	As per Expected Result	Pass
4	A2	Check Tab Preview	After open website check tab preview is showing properly or not	Internet, Browser & Website in working condition	1. Enter Link 2. Move cursor on previous Tab	-	Tab preview shows properly	As per Expected Result	Pass
5	A3	check the all fields available	After open website check all fields are available or not	Internet, Browser & Website in working condition	1. Enter Link 2. check all fields are present	-	All field should be available username password email,	As per Expected Result	Pass
6	A4	check the font style and size	After open website check font size and style are available or not	Internet, Browser & Website in working condition	1. Enter Link 2. check all fonts style and size	-	font style and size are working fine and user show proper font style and size	As per Expected Result	Pass
7	A5	check the email field	after open website check email field	Internet, Browser & Website in working condition	1. Enter Link 2. check email field	-	email field accept character number and special symbol	As per Expected Result	Pass
8	A6	check the email field	after open website check email field	Internet, Browser & Website in working condition	1. Enter Link 2. check email field	-	email field accept unlimited characters	Email field should accept limited character	Fail
9	A7	check the password field	check the password field accept character, number, special symbol or not	Internet, Browser & Website in working condition	1. Enter Link 2. check Password field	-	Password field accept number, character, special symbol	As per Expected Result	Pass
10	A8	check the password field	after open website check Password field	Internet, Browser & Website in working condition	1. Enter Link 2. check Password field	-	Password field accept unlimited characters	Password field should accept limited character	Fail
11	A9	check password field	check password field masked or not	Internet, Browser & Website in working condition	1. Enter Link 2. check Password field	-	Password field should be masked	As per Expected Result	Pass
12	A10	check password field	check hide & show button work or not	Internet, Browser & Website in working condition	1. Enter Link 2. check Password field	-	Hide & Show should be work proper	As per Expected Result	Pass
13	A11	when user Enter data then both field placeholder hide or not	check email & password field	Internet, Browser & Website in working condition	1. Enter Link 2. check password field 3. check Email Field		Email & Password field should remove the placeholder	As per Expected Result	Pass

Test Case ID	Functionality ID	Test Case Name	Test Summary	Pre - Condition	Test Steps	Test Data	Expected Result	Actual Result	Status
14	A12	check password field	check password field accept white space or blank space or not	Internet, Browser & Website in working condition	1. Enter Link 2. check Password field		Blank space is not allowed	Here Blank space count as a character	Fail
15	A13	check Login Button	check Login button is clickable or not	Internet, Browser & Website in working condition	1. Enter Link 2. Click Login button		Login button should be clickable	As per Expected Result	Pass
16	A14	check Login Button	check without enter any data & click on Login button	Internet, Browser & Website in working condition	1. Enter Link 2. Click Login button		Give an Error Message Sepcific Like "Please Fill the field "	here Error Message is wrong	Fail
17	A15	check Login Button	check correct email & incorrct Password	Internet, Browser & Website in working condition	Enter Link nter Email 3. Entr Password 4. Click Login button	Email: mital_07 Password: 134243	it should be give an error "please Enter correct Password"	here Error Message is wrong	Fail
18	A16	check Login Button	check correct Password & incorrct Email	Internet, Browser & Website in working condition	Enter Link nter Email 3. Entr Password 4. Click Login button	Email: mital_07 Password: mital@123	it should be give an error "please Enter correct Password"	here Error Message is wrong	Fail
19	A17	check Login Button	check correct Password & unrgisterd Email	Internet, Browser & Website in working condition	Enter Link nter Email 3. Entr Password 4. Click Login button	Email: mital_07@gmail.com Password: mital@123	it should be give an error "please Enter correct Password"	here Error Message is wrong	Fail
20	A18	check Forgot Password Link	check link is clickable or not	Internet, Browser & Website in working condition	r Link 2. Click Forgot password Link	-	Link should be clcikable	As per Expected Result	Pass
21	A19	check Forgot Password Link	check link is Redirct or not	Internet, Browser & Website in working condition	r Link 2. Click Forgot password Link	-	Link should be Redircted Forgot password page	As per Expected Result	Pass
22	A17	check Login Button	check correct Password & corect Email but enter some space between	Internet, Browser & Website in working condition	Enter Link nter Email 3. Entr Password 4. Click Login button	Email: mital_07@gmail.com Password: mital@123	it should be dislayp proper error then user understand easily	here Error Message is wrong	Fail
23	A18	check Login Button	check correct Password & corect phone	Internet, Browser & Website in working condition	Enter Link 2. Enter phone 3. Entr Password 4. Click Login button	Phone : 1234567899 sword: mital@123	User succesfully Login	As per Expected Result	Pass
24	A19	check Login Functionailty	check correct Password & incorerct phone	Internet, Browser & Website in working condition	Enter Link 2. Enter phone 3. Entr Password 4. Click Login button	Phone : 123456799 sword: mital@123	it should be display error	As per Expected Result	Pass
25	A20	check Login Functionailty	check correct Password & corect email	Internet, Browser & Website in working condition	Enter Link 2. Enter email 3. Entr Password 4. Click Login button	mail: mital@gmail.com Password: mital@123	User succesfully Login	As per Expected Result	Pass

Test Case ID	Functionality ID	Test Case Name	Test Summary	Pre - Condition	Test Steps	Test Data	Expected Result	Actual Result	Status
26	A21	check Create account	check Create Account Button is redirect or not	Internet, Browser & Website in working condition	Enter Link 2. Click Login button	mail:mital@gmail.com Password: mital@123	Create Account should be Button is redirect	As per Expected Result	Pass
27	A22	check after Login	check After Login it redirect Homepage	Internet, Browser & Website in working condition	Enter Link 2. Enter email3. Entr Password 4. Click Login button	mail:mital@gmail.com Password: mital@123	User succesfully Login then it redirect Hompage	As per Expected Result	Pass
28	A23	check Login Functionailty	check user refresh the page then data clear or not	Internet, Browser & Website in working condition	Enter Link 2. Enter email3. Entr Password 4. Click Login button	mail:mital@gmail.com Password: mital@123	user refresh the page then data should be clear	As per Expected Result	Pass
29	A24	check Login Functionailty	check the cookie store or not	Internet, Browser & Website in working condition	Enter Link 2. Enter email3. Entr Password 4. Click Login button	mail:mital@gmail.com Password: mital@123	cookie should be store on local device	As per Expected Result	Pass
30	A25	check Login Functionailty	check Session manae or not	Internet, Browser & Website in working condition	Enter Link 2. Enter email3. Entr Password 4. Click Login button	mail:mital@gmail.com Password: mital@123	session time should be manage	As per Expected Result	Pass

Test Case ID	Functionality ID	Test Summary	Steps	Test Data	Actual Result
1	A1	After Enter Link Check Website is open properly or not	1. Open Browser [Google Chrome] 2. Enter Link	https://www.facebook.com/	After Entering Link Check Website should be open properly
2	A1	After Enter Link Check Website is open properly or not	1. Open Browser [Microsoft Edge] 2. Enter Link	https://www.facebook.com/	After Entering Link Check Website should be open properly
3	A1	After Enter Link Check Website is secure or not	1. Open Browser [Google Chrome] 2. Enter Link 3. Click on Link Icon	https://www.facebook.com/	After Open Website it should be secure

9	A7	check the password field accept character, number, special symbol or not	1. Enter Link 2. check Password field	-	Password field accept number, character, special symbol
10	A8	after open website check Password field	1. Enter Link 2. check Password field	-	Password field accept unlimited characters
11	A9	check password field masked or not	1. Enter Link 2. check Password field	-	Password field should be masked
12	A10	check hide & show button work or not	1. Enter Link 2. check Password field	-	Hide & Show should be work proper
13	A11	check email & password field	1. Enter Link 2. check Password field 3. check Email Field	-	Email & Password field should remove the placeholder
14	A12	check password field accept white space or blank space or not	1. Enter Link 2. check Password field	-	Blank space is not allowed
15	A13	check Login button is clickable or not	1. Enter Link 2. Click Login button	-	Login button should be clickable
16	A14	check without enter any data & click on Login button	1. Enter Link 2. Click Login button	-	Give an Error Message Specific Like "Please Fill the field "

17	A15	check correct email & incorrct Password	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Email:mital_07 Password: 134243	it should be give an error "please Enter correct Password"
18	A16	check correct Password& incorrct Email	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Email:mital_07 Password: mital@123	it should be give an error "please Enter correct Password"
19	A17	check correct Password& unrgisterd Email	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Email:mital_07@gmail.com Password:mital@123	it should be give an error "please Enter correct Password"
20	A18	check link is clickable or not	1. Enter Link 2. Click Forgot password Link	-	Link should be clcikable
21	A19	check link is Redirct or not	1. Enter Link 2. Click Forgot password Link	-	Link should be Redircted Forgot password page
22	A17	check correct Password& corecrt Email but enter some space between	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Email:mital_07@gmail.com Password:mital@123	it should be dislayp proper error then user understand easily
23	A18	check correct Password& corecrt phone	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Phone :1234567899 Password:mital@123	User succesfully Login
24	A19	check correct Password& incorerct phone	Enter Link . Enter Email 3. Entr Password 4. Click Login button	Phone :123456799 Password:mital@123	it should be display error
25	A20	check correct Password& corecrt email	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	User succesfully Login
26	A21	check Create Account Button is redirect or not	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	Create Account should be Button is redirect
27	A22	check After Login it redirect Homepage	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	User succesfully Login then it redirect Hompage
28	A23	check user refresh the page then data clear or not	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	user refresh the page then data should be clear

29	A24	check the cookie store or not	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	cookie should be store on local device
30	A25	check Session manae or not	Enter Link . Enter Email 3. Entr Password 4. Click Login button	mail:mital@gmail.com Password:mital@123	session time should be manage

Issue No.	Issue Description	Device/Screen Size	Impact	Suggestion/Notes
1	Input fields are too narrow on small mobile screens, causing difficulty in typing.	Mobile (320x568)	Medium	Increase width or make input fields responsive to 100% width.
2	Login button is partially cut off on very small mobile screens, forcing horizontal scrolling	Mobile (320x568)	High	Adjust button container padding/margin to avoid overflow.
3	Logo and header text overlap on smaller devices when keyboard is active.	Mobile (375x667)	Medium	Add margin-bottom or reduce logo size dynamically when keyboard shows.
4	Text in the 'Sign up for Facebook' link is too small on tablets, affecting readability.	Tablet (768x1024)		Increase font size for better accessibility.
5	Password input field doesn't show "eye" icon to toggle visibility, affecting usability.	All devices	Low	Consider adding a toggle visibility icon for better UX.
6	Error messages or validation feedback are not visible or missing on responsive views.	Mobile & Tablet	High	Implement visible validation errors below input fields on all devices.
7	Page does not scroll properly when keyboard opens on mobile devices, causing some inputs or buttons to be hidden behind the keyboard.	Mobile (iOS/Android)	High	Adjust viewport settings or use scripts to ensure inputs scroll into view.
8	Screen resizing causes layout flicker or jump, affecting smoothness.	All devices during resizing	Low	Use CSS transitions or smoother layout changes to avoid flicker.

Defect Id	Defect Summary	steps	test data	Defect type	defect severity	defect priority	Expected Result	Actual Result
1	check the Logo is present or not	1. open the app 2. check the Logo is present or not	-	Functionaility Defect	normal	Low	Logo should be present	Here Logo is not present
2	check the option is proper alinged or not	1. open the app 2. check the Option is proper aligned or not		Functionaility Defect	critical	High	All the option should be top of the oage	here all the option is bottom of the page
3	Must See Pieces button is redirect ot not	1. open the app 2. click on must see Pieces button		Functionaility Defect	critical	High	Must see Pieces button should be redirect	here must see Pieces page not redirect another page
4	Elegance Univeiled button is redirect ot not	1. open the app 2. click on Elegance Univeiled button		Functionaility Defect	critical	High	Elegance Univeiled button should be redirect	here Elegance Univeiled page not redirect another page
5	check category page ui is proper or not	1. open the app 2. click on Category opriion		Functionaility Defect	critical	High	category page should be proper design	here category page not proper
6	Loved by all button is redirect ot not	1. open the app 2. click on Loved by all button		Functionaility Defect	critical	High	Loved by all button should be redirect	here Loved by allpage not redirect another page
7	standout styles all button is redirect ot not	1. open the app 2. click on standout styles button		Functionaility Defect	critical	High	standout styles button should be redirect	standout styles page not redirect another page
8	shop your favourite all button is redirect ot not	1. open the app 2. click on shop your favourite button		Functionaility Defect	critical	High	shop your favourite button should be redirect	shop your favourite page not redirect another page
9	Must have for girls/ women button is redirect ot not	1. open the app 2. click on Must have for girls/ women button		Functionaility Defect	critical	High	Must have for girls/ women button should be redirect	Must have for girls/ women page not redirect another page
10	forgot password page close icon is visible or not	1. open the app 2. click on Forgot password page		UI Defect	normal	Low	forgot password page close icon should be visible proper	here close icon is not visible
11	check email field	1. open the app		Functionaility Defect	critical	High	when user dont enter email then it should be display proper validation message	when user dont enter email then it show wrong validation message
12	check email field	1. open the app . Enter Invalid email	email: mital234324	Functionaility Defect	critical	High	ewhen user enter wrong email then it should be display proper error message with example	here display invalid error maessage

13	change password & check login functionailty	1. open the app 2. click on forgot password page 3. change password 4. enter new password 5. enter new re enter password		Functionailty Defect	critical	High	when user change password then it should be login successfully	here display error
14	check change username option is present or not	1. open the app 2. Enter Email 3. Enter password 4. check change username option		Functionailty Defect	critical	High	when user login then change username option should be display	here this oprion is missing
15	check Logout option	1. open the app 2. Enter Email 3. Enter password 4. check Logout option		UI Defect	normal	Low	logout option should be top of the page	here logout option is placed wrong side
16	chek the set profile image option is present or not	1. open the app 2. Enter Email 3. Enter password 4. check Profile option		UI Defect	normal	Low	Profile option should be display Login user	here profile option is not present
17	check user logout then redirect login page or not	1. open the app 2. Enter Email 3. Enter password 4. Login successfully 5. click on logout option		UI Defect	normal	Low	when user logout then it should be redirect on login page	here user logout then it not redirect any page
18	username & profile option check	1. open the app 2. Enter Email 3. Enter password 4. check Profile option		UI Defect	normal	Low	username & profile option should be placed on top of the page right side of the screen	here it not display header or home page
19	pincode field accept charcter , special symbol or not	1. open the app 2. Enter pincode fiedl		Functionailty Defect	critical	High	pin code field accept only digit	here accept special symbol, charcater
20	city field should use drop down	1. open the app 2. Enter city fiedl		UI Defect	normal	Low	city field should have dropdown	here user add special symbol , number
21	check city field accept number & special symbol or not	1. open the app 2. Enter city fiedl		UI Defect	normal	Low	city field should have dropdown	here user add special symbol , number
22	Receiver name fiedl accept number & special symbol	1. open the app 2. Enter Reciver name fiedl		UI Defect	normal	Low	field only accept character	here user add special symbol , number
23	Receiver name fiedl accept unlimited character	1. open the app 2. Enter Reciver name fiedl		UI Defect	normal	Low	Receiver name fiedl should accept limited character	Receiver name fiedl accept unlimited character

24	phone number field accept unlimited character	1. open the app 2. Enter phone no		UI Defect	normal	Low	phone no field should accept limited character	phone no field accept unlimited character
25	check user enter wrong pincode then display error or not	1. open the app 2. Enter pin code		Functionaility Defect	critical	High	user enter wrong pincode then display specific error message	here display erong erro message
26	check tooltip present or not	1. open the app 2. hover mouse all option		UI Defect	normal	Low	tool tip shjould be visible	here tool tip is not visibkle
27	check product page Check button is working or not	1. open the app 2. click on check button		UI Defect	normal	Low	check button should be working properly	here check button is not working
28	check user add multiple quantity then total is proeprly display or not	1. open the app 2. add the item 3. add the quantity		Functionaility Defect	critical	High	when user add the quantity then total display proper	here total not changed
29	check if user enter once time add a product after user add product then show error message or not	1. open the app 2. add the product 3. reenter add to cart product		UI Defect	normal	Low	when user reenter add to cart then should be display error message	here no display any validation message
30	check the laod of application	1. open the app 2. perform all the function		Functionaility Defect	critical	High	the app should be working fine	here application is working slow
31	check the slider image redirect ot not	1. open the app 2. click on slider second image		Functionaility Defect	critical	High	image should be redirect another page	here image not redirect another page
32	Chcek email field accept unlimited charcter or not	1. open the app 2. Enter email field		UI Defect	normal	Low	email field should accept limited character	email field accept unlimited character
33	check password field accept unlimited character or not	1. open the app 2. Enter password field		UI Defect	normal	Low	password field should accept limited character	password field accept unlimited character
34	check password field have strong validation or not	1. open the app 2. Enter password field		UI Defect	normal	Low	password field validation stong password only accept	here not validation of strong password
35	check product description is proper or not	1. open the app 2. Enter password field		UI Defect	normal	Low	product iamge and description between more spaces	the space should be less between product & product description
36	check UI of category page	1. open the app 2. check the UI of the category page		UI Defect	normal	Low	the Ui Should be proper image icon color & design	here any design and button not present

37	check Notification is working or not	1. open the app 2.check the Notification page		Functionaility Defect	critical	High	Notification page should be working properly	here notification page not working
